The best in customer service

We combine product quality and security of supply with world-class customer service. Our experienced staff are committed to providing the very best service in generating real value for all our customers.

This is backed by decades of expertise in logistics and technical support.

Application sectors and products

Our Klea® refrigerants are supplied to major manufacturers and a large share of the aftermarket servicing sector across commercial refrigeration, automotive and stationary air conditioning applications.

Mexichem has a proud heritage in fluorine chemistry that dates back over fifty years, including a number of industry firsts. Our commitment to innovation continues today through the development of new low GWP refrigerants.
